

Phase-1 SOP: Folder & PDF File Naming Standard

IMPORTANT: Do not create your own folder names or file names. Use the exact standard below so Python can identify every PDF automatically.

- 1- Folder Structure and Folder Naming (Page 1)
- 2- File Structure and File Naming (Page 3)
- 3- Country Codes (Page 5)
- 4- Important Instructions (Page 9)

1. Standard Folder Structure

You will create 5 folders overall and will keep the files in the fifth subfolder.

Use this order only:

```

ROOT / COUNTRY / EXCHANGE / COMPANY / FISCAL YEAR / PDFs
GLOBAL_SUSTAINABILITY_DATABASE/
├── GBR/
│   ├── XLON/
│   │   ├── 2138007ZFQYRUSLU3J98_GB00BHJYC057_IHG/
│   │   │   ├── FY2024/
│   │   │   │   ├── 2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_AR_EN.pdf
│   │   │   │   ├── 2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_SR_EN.pdf
│   │   │   │   └── 2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_ASSUR_EN.pdf

```

Look for the country code/Territory code (e.g. GBR) at the end of this document

1.1. Folder Naming Rules

How to create folders: First, right-click in your system's drive D or E (not on drive C or the Desktop), create folder and rename it as Global_Sustainability_Database, then inside the Global_Sustainability_Database folder create another subfolder and rename it with Country name you are allocated under country ISO 3-letter code (given on page 5) as suppose for United Kingdom subfolder name will be given as GBR, then in GBR subfolder create another subfolder and rename as Exchange name like XLON, then create subfolder in it and name as LEI_ISIN_Ticker and then create a subfolder in the subfolder Company LEI_ISIN_Ticker as Year (FY2025) and place files (Annual Reports and Sustainability Reports) in it.

Level	Standard	Example
Country	ISO 3-letter code	GBR, AUS, PKR, IND
Stock Exchange	Fixed exchange code	XLON, XNAS, XNYS, XHKG
Legal Entity Identifier	LEI	2138007ZFQYRUSLU3J98
International Securities Identification Number	ISIN	GB00BHJYC057
Company Name (Ticker Symbol)	ticker	IHG
Year	FY + 4-digit fiscal year	FY2024

How to Name Files? Look below at heading 2.

2. For file naming rules

You will download two types of files: Full **Annual Reports** (not the Financial Statements Section only) in PDFs only (no other formats) and **Sustainability Reports** (Environmental (TCFD, GRI, GHG, ISO 16064, CDP, ISO 14001, TNFD, CSRD, others), Social report (Modern Slavery Report), Governance report (Pillar 3), and if a **Sustainability Assurance Statement** is given also download it. Note: Sustainability reports could also be called ESG reports, business responsibility reports or strategic reports. Annual and Sustainability reports are available on companies' websites in Documents or Investor sections or in other places on company websites.

2.1. Standard PDF File Name

Download each file and rename it as given below and place it in the respective year folder (e.g., in the folder FY2025). **Note: The .pdf will automatically appear when you place the PDF file in the folder, so there is no need to put .pdf at the end.**

LEI_IS03_Exchange_Ticker_ISIN_FiscalYear_ReportType_Language.pdf

For an Annual Report example:

2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_AR_EN.pdf

For Sustainability Report example:

2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_SR_EN.pdf

Note: Sustainability reports may be of many types, so look at its name and code below and rename it very carefully for the file name.

2.2. Report Type Codes

Code	Report Type
AR	Annual Report
SR	Sustainability Report
ESG	ESG Report
IR	Integrated Report
CLIMATE	Climate Report
TCFD	Standalone TCFD Report
CDP	Carbon Disclosure Project
STR	Strategic Report

BRR	Business Responsibility Report
ASSUR	Sustainability Assurance Statement
GHG	Greenhouse Emissions Report
10K	US Form 10-K
20F	Form 20-F
ASR	Annual Securities Report
MODS	Modern Slavery Report
GGR	Governance Report
OTHER	Other relevant report

3. Rules Every Student Must Follow

- Use the fiscal/reporting year, not the publication or download year. A FY2024 report published in 2025 is still FY2024.
- Keep Annual Report and Sustainability/ESG reports in the same FY folder.
- If sustainability disclosure is inside the Annual/Integrated Report, do not duplicate the same PDF.
- If multiple different reports exist for the same year, save each with the correct report-type code.
- Use EN for a full English version or a bilingual report containing complete English content.
- **Do not** add student names, download dates, “final”, “new”, “latest”, **brackets, spaces, or random words** to filenames.
- Do not rename LEI, ISIN, ticker, country code, exchange code, or fiscal year except as supplied to you.

4. Quick Example

Company: InterContinental Hotels Group PLC | Ticker: IHG | ISIN: GB00BHJYC057 | Exchange: XLON

GBR/XLON/2138007ZFQYRUSLU3J98_GB00BHJYC057_IHG/FY2024/
 2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_AR_EN.pdf
 2138007ZFQYRUSLU3J98_GBR_XLON_IHG_GB00BHJYC057_FY2024_SR_EN.pdf

Student task: Download the **correct report**, confirm the **ISIN**, **Fiscal year**, and **Report type**, rename it exactly according to this standard, and **place it in the correct FY folder**.

5. ISO-3 Country / Territory Codes

Reference for Standardized Research Folder Naming

Folder rule: use the ISO3 code as the country folder name, e.g., GBR, AUS, PRK, IND

Important: the official ISO3 code for the United Kingdom is GBR (not UK).

Important: (Standard Folder and File Name is very Important for Python....)

1. Must keep a backup of the folder in your Google Drive. For this Must upload and update the work folder **GLOBAL_SUSTAINABILITY_DATABASE** in your Google Drive regularly. Precaution: Never save folders/work on drive C; in case of system corruption, work may get lost.
2. You will give access to your Google Drive work folder to the **Group Leader** and also to the **Project Director** for review of work every week.
3. Must read this document as many times as needed to resolve all your queries for greater understanding.
4. In case of ambiguity, please send a message/query in your allocated WhatsApp group or in the General Group in the Community for more audience reply from other groups. Follow the community Announcements regarding project updates. If not resolved, then contact the group Leader first; if remained un-resolved, then you must contact the Project Director.
5. Again, keep in mind to keep the name standard as per the instructions given above.
6. Work progress will be followed by the Group Leader every week.
